Most recent work experience

● Full Stack at Ayesa

2022 (March) - 2024 (February) [Seville, Spain] (Full Stack Web Developer)

Responsabilities:

- I am the go-to person for one or more technologies and takes the initiative to learn new ones.
- I challenge team processes, looking for ways to improve them.
- I proactively support other team members and help them succeed.
- I have an impact on the entire team, not just specific parts of it.

Key accomplishments:

- Improved front-end and back-end code execution by increasing agile methodologies from old JSP code to new technologies such as React and SpringBoot.
- I improved my programming knowledge by programming a real project day by day.
